About Me

Frontend Developer with 3+ years of experience building scalable and interactive web applications using React.js and modern JavaScript. Experienced in transforming static designs into reusable component-based architecture within test-driven environments. Additionally skilled in Agentic Development, building AI-assisted workflows and integrating intelligent automation into web applications.

Skills

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI
- Backend: Node.js (Basic), REST APIs
- AI-assisted development workflows
- Prompt engineering basics
- Integration with AI APIs
- Using tools like Cursor & AI coding assistants
- Tools: Git, GitHub, Postman, VS Code

Education

- **Bachelor of Science in Computer Science**
Shree Ramkrishna Institute of Computer Education & Applied Sciences (VNSGU) 2016 – 2019
- **Master of Science in Computer Application**
Shree Ramkrishna Institute of Computer Education & Applied Sciences (VNSGU) 2019 – 2021

Experience

- **Software Developer Trainee**
Differenz System Feb 2021 – Aug 2021
 - Assisted in frontend development using React , JavaScript and wordpress.
 - Fixed UI bugs and implemented new features
 - Learned component-based architecture and API integration
 - Collaborated with senior developers in agile environment
- **Jr. Software Engineer**
Differenz System Aug 2021 – Oct 2022
 - Converted static HTML designs into reusable React components
 - Migrated WordPress frontend to React with Node.js backend
 - Developed interactive game modules (Chess Clock, Wheel of Fortune, Icebreaker tools)
 - Improved application performance and UI responsiveness
 - Worked in deadline-driven environment
 - Released patches and handled bug fixes post-deployment
- **JavaScript Developer**
Logicwind Technologies LLP June 2023 - Present
 - Built web applications using React.js and Next.js
 - Integrated GraphQL APIs with Apollo Client
 - Converted Figma designs into responsive React components
 - Developed scalable UI using Ant Design (AntD)
 - Collaborated with clients to deliver tailored solutions
 - Used AI tools (Cursor, ChatGPT) and applied agentic workflows to boost productivity
